Muhammad Tayyab

Senior Software Engineer | Team Lead | .NET, Angular, SQL Server

Lahore, Pakistan | +92 323 4508663 | tayyabch380@gmail.com | linkedin.com/in/tayyab-ch-623024158

SUMMARY

Senior software engineer and team lead with 8+ years building .NET web applications, REST APIs and SQL Server databases, plus Angular frontends and Python AI services. I lead delivery from requirements to production for clients in the US and Pakistan, including a multi-tenant email-marketing SaaS, a metro-rail operations system and AI-driven education products. I work remotely with US teams across time zones and run careful, reversible production releases.

SKILLS

Backend	C#, .NET 10, ASP.NET Core (Web API, MVC), Entity Framework Core, SignalR, ASP.NET Web Forms
Frontend	Angular, TypeScript, JavaScript, RxJS, Tailwind CSS, Angular Material
Databases	SQL Server (T-SQL, stored procedures, query tuning), PostgreSQL, DbUp migrations
DevOps & Cloud	GitHub Actions CI/CD, Docker, IIS, Linux, AWS, Git, k6 load testing
AI & Python	Python, Flask, OpenAI GPT-4o, Google OR-Tools, Prophet forecasting
Integrations	Stripe, PayPal, Twilio, SendGrid, Firebase, OAuth2/JWT/SSO, KumoMTA, PowerMTA
Leadership	Team leadership, Scrum, Jira, code review, client communication, Claude Code

EXPERIENCE

Senior Software Engineer / Team Lead, **Visiomate** — Feb 2026 – Present

Team lead and full-stack engineer on six client products, from requirements to production support.

NextMail – email-marketing SaaS for a US client

ASP.NET Web Forms, .NET Framework 4.8, Windows Services, SQL Server

- Integrated KumoMTA beside PowerMTA as a per-client mail engine, with a .NET open/click tracking API.
- Built a DbUp and GitHub Actions pipeline that migrates 25 tenant databases from versioned SQL scripts.
- Ran production releases across 12 Windows services with staging tests and rollback plans.
- Fixed a suppression gap that left 1,592 hard-bounced contacts mailable.
- Removed hardcoded credentials and exposed test pages; moved secrets out of source control.

Orange Line OMS – operations system for the Lahore Orange Line Metro Train

Angular 21, .NET 10, PostgreSQL, SignalR, Docker, GitHub Actions

- Main contributor, with about half of ~980 commits across the Angular frontend and .NET API.
- Built work-permit tickets, power-isolation requests, dispatch orders and approval workflows.
- Added role-based feature access, live notifications (SignalR, Firebase), and PDF and Excel output.
- Load-tested with k6: 80 req/s sustained at 0% errors; found the bottleneck in list endpoints.
- Set up Docker and GitHub Actions deploys that restart only the backend on a shared host.

Webinar CE Classes – continuing-education webinar platform

ASP.NET Core MVC, Entity Framework Core, SQL Server, OpenAI GPT-4o, Stripe

- Built AI course generation with GPT-4o: article extraction, an auto-build queue and AI cost tracking.
- Added pricing plans, coupons, newsletter, reCAPTCHA and a redesigned course catalog.

Workforce AI – contact-center workforce management

Python, Flask, Google OR-Tools, Prophet

- Built call-volume forecasting and shift scheduling that minimizes unmet demand, then headcount.

Sunwai – State Bank of Pakistan complaint portal

ASP.NET Core (.NET 10), SQL Server, Active Directory

- Shipped Google reCAPTCHA Enterprise and an OTP resend flow to the user-management app.

Nurtureful – online therapy platform
Angular 19, .NET 9, Twilio Video, Stripe

- Built therapist filters, ratings, onboarding, booking notifications and an AI assistant chatbot.

Software Engineer / Team Lead, **Team Solution**, Lahore — Aug 2021 – Jan 2026

US K-12 education products: SchoolCity, School Charts, Appraiser, GradeCam, Jobee.

- Led the development team as Scrum Master: sprint planning, stand-ups, reviews and retrospectives.
- Built OAuth2/JWT authentication and single sign-on shared across products (.NET Core, AWS).
- Built an asynchronous export service for PDF, Excel and CSV reports over large datasets.
- Tuned SQL Server schemas, queries, indexes and stored procedures for high-traffic apps.

Software Developer, **SirizApps**, Lahore — May 2020 – Jul 2021

- Built ASP.NET Web Forms and SQL Server apps, including Mosino, a multi-language booking platform.
- Reviewed code and mentored junior developers as senior web developer.

ERP Support Manager, **Fahmir Pharma (Pvt) Ltd**, Lahore — Feb 2019 – Nov 2019

- Led ERP support, user training and customization with finance and operations teams.

Technical Support Specialist, **Softbeats Business Solutions**, Lahore — Jul 2018 – Jan 2019

- Developed and supported Gluon ERP modules in ASP.NET Web Forms and SQL Server.

EDUCATION

Master of Computer Science (MCS), **Superior University**, Lahore, Pakistan — 2019
CGPA 3.2 / 4.0
